

Research Trend Analysis Report

2026.00.00

- Global Publication Trends
- Research Topic Analysis
- Research Institution and Researcher Analysis

Korea University Library

Research Information Curation Services Team

A. Analysis Method and Scope

1) Keywords

가) Required Keyword: Multicultural Acceptance, Multicultural Acceptability

나) Optional Keywords: Multiculturalism, Cultural Diversity

2) Search Strategy

– This search applies specified terms to the title, abstract, and keywords of documents.

– By entering the query below in Scopus Advanced Document Search, all relevant publications can be identified.

AUTHKEY (multicultural AND acceptance) OR TITLE (multicultural AND acceptance) OR AUTHKEY (multicultural AND acceptability) OR TITLE (multicultural AND acceptability) OR AUTHKEY (multiculturalism) OR AUTHKEY (cultural AND diversity)

3) Subject Area: Social Sciences, Arts and Humanities

4) Document Type: Article, Review, Conference Paper

5) Search Scope: Scopus (Total of 2,948 publications)

6) Analysis Tool: SciVal

7) Analysis Period: Last 5 years (2021–2025)

8) Metrics Year: 2024

B. Notes

1) This report is based on data retrieved from Scopus; therefore, actual results may differ.

2) Search results may vary depending on the date and time of the search.

3) This report contains copyrighted data; unauthorized use beyond personal use is prohibited.

4) In fields with limited coverage in Scopus, the number of publications analyzed may be small, which should be considered when interpreting the results.

A. CiteScore (Journal Metrics)

CiteScore is a journal impact metric provided by Scopus. It is calculated as the average number of citations received per document published in a journal over the most recent four years. It reflects the overall citation impact of a journal, with higher values indicating that articles published in the journal are more frequently cited.

B. FWCI (Field-Weighted Citation Impact)

FWCI is a relative citation metric based on Scopus data. It is normalized by subject area, document type, and publication year, allowing for fair comparison across different research fields. FWCI indicates how often a publication is cited compared to the global average.

A value of 1.0 represents the world average; values above 1.0 indicate higher-than-average citation impact, while values below 1.0 indicate lower-than-average impact.

C. PP (Prominence Percentile)

PP is an indicator of the prominence of a research topic, reflecting its level of activity based on publication volume, citations, and scholarly attention.

It is expressed as a percentile, with higher values indicating topics that are currently receiving greater research interest.

D. Top 10% Journals

This refers to journals that rank within the top 10% based on journal impact metrics (e.g., CiteScore) within a specific subject area. For example, if there are 200 journals in the Anthropology category in Scopus, the top 10% would correspond to the top 20 journals ranked by CiteScore.

Journals in this group are generally considered highly influential, with strong academic impact and a high likelihood of being cited.

E. SDGs (Sustainable Development Goals)

The Sustainable Development Goals (SDGs) are 17 global goals established by the United Nations in 2015 to address key social, economic, and environmental challenges by 2030.

They are widely used to assess how research contributes to solving real-world problems and are increasingly reflected in university and research evaluations.

A. Countries and Regions

The top countries by number of publications related to “Multicultural Acceptance” are as follows:

Countries & Regions	Publications	FWCI	Citation Count
United States	667	1.19	7.8
Australia	238	1.75	7.3
United Kingdom	219	1.69	7.2
Spain	199	0.92	5.0
Canada	191	1.45	8.5
China	133	0.97	4.2
Germany	105	1.61	7.5
Netherlands	105	1.40	10.6
Italy	100	0.81	4.5
Russian Federation	98	0.66	4.5
South Korea	77	0.68	2.1

Among the top 10 countries by number of publications, the three countries with the highest FWCI are Australia (1.75), United Kingdom (1.69), and Germany (1.61).

B. Institutions

The top institutions by number of publications related to “Multicultural Acceptance” are as follows:

Institution	Countries & Regions	Publications	FWCI	Average Citations per Publication
Deakin University	Australia	32	2.99	12.7
University of Melbourne	Australia	31	2.19	7.2
KU Leuven	Belgium	25	1.92	8.4
Utrecht University	Netherlands	25	1.29	11.2
Russian Academy of Sciences	Russian Federation	24	0.36	1.0
University of Toronto	Canada	23	0.88	3.7
City University of New York	United States	22	1.09	11.2
Monash University	Australia	20	2.53	6.2

3. Research Institution and Researcher Analysis

Royal Melbourne Institute of Technology University	Australia	20	1.33	3.0
University of Amsterdam	Netherlands	20	1.61	6.7
University of Sydney	Australia	20	1.84	2.9

Among the top 10 institutions by number of publications, the following three institutions have the highest FWCI values:

- Deakin University (Australia, 2.99)
- Monash University (Australia, 2.53)
- University of Melbourne (Australia, 2.19)

C. Researchers

“Multicultural Acceptance” 관련 논문 수 상위 연구자는 다음과 같습니다.

Authors	Countries	Affiliation	Publications	FWCI	Average Citations per Publication
Modood, Tariq	United Kingdom	University of Bristol	13	4.09	10.8
Mansouri, Fethi	Australia	Deakin University	11	5.15	16.2
Berry, John W.	Canada	Queen's University Kingston	10	2.53	19.3
Schachner, Maja Katharina	Germany	Martin Luther University Halle-Wittenberg	10	2.56	19.6
Juang, Linda P.	Germany	University of Potsdam	8	2.79	24.0
Schwarzenthal, Miriam	Germany	University of Wuppertal	8	2.25	20.8
Gale, Jessica	New Zealand	University of Canterbury	7	0.86	5.0
Mikkonen, Kristina	United Kingdom	Northumbria University	7	2.47	12.7
Oikarainen, Ashlee	Finland	University of Oulu	7	2.47	12.7
Verkuyten, Maykel	Netherlands	Utrecht University	7	1.44	15.4

Among the top 10 researchers by number of publications, the following three researchers have the highest FWCI values:

- Mansouri, Fethi(Australia, Deakin University)
- Modood, Tariq (United Kingdom, University of Bristol)
- Juang, Linda P.(Germany, University of Potsdam)

D. Relevant Research at Korea University

A total of five publications related to “Multicultural Acceptance” were authored by researchers affiliated with Korea University. One publication was published in 2021, three in 2024, and one in 2025.

Title	Authors	Year	Journal	Citation
Enhancing innovation through gender diversity: a two-country study of top management teams	Hemmert, M., Cho, C.K., Lee, J.Y.	2024	European Journal of Innovation Management	18
Linguistic Diversity Index: A Scientometric Measure to Enhance the Relevance of Small and Minority Group Languages	Linkov, V., O'Doherty, K., Choi, E. and 1 more	2021	SAGE Open	14
Cooperative Learning Promoting Cultural Diversity and Individual Accountability: A Systematic Review	Zhou, T., Colomer, J.	2024	Education Sciences	3
Mapping the Scholarship on International Students: Systematic Review of Past Publications in the Journal of International Students, 2011–2024	Hong, B., Bista, K., Timmons, P.C.	2025	Journal of International Students	1
Rethinking food aid for immigrants and refugees: Insights from Syracuse	Lee, S., Lee, S.	2024	Development Policy Review	0
